JUAN HAMILTON

Arco Iris, Colón · 6309-6845
jhamiltonedwards@gmail.com · **LinkedIn** · **Github**

Junior web developer with experience on web development.

SKILLS

- Proficient on the following programming languages: JavaScript, TypeScript, Kotlin.
- Knowledge on Python, Java, MySQL y MongoDB, HTML5, CSS3.
- Familiar with the following architectures: MVVM, SCRUM.

- Proficient on these technologies: React, Bootstrap, Next.js y NestJS, JUnit, Git.
- Excellent understanding on good UI/UX practices.
- Able to fully communicate in English.

EXPERIENCE

AUGUST 2022
PERSONAL PROJECT: KANBAN

- Task management web app, like Trello's card design. It was created using TypeScript as the programming language, alongside Next.js y NestJS as frameworks.
- Styling of the website was done using MUI library.
- On the backend, I implemented a full register/login flow, as well as a possibility to recover passwords.
- Created multiple unit testing and integration testing to ensure the backend was working as intended.
- Created a custom API to be used on the frontend, allowing all CRUD basic functionalities.

JULIO, 2022
PERSONAL PROJECT: DESIGNO AGENCY

- Created a static website for a technology agency.
- The website was built using React and MUI for the design.
- Used Strapi for all content management.
- Implemented Google Maps API to allow interactive maps on the site for users to see all the agency different locations.

EDUCATION

2020 – 2023
SOFTWARE DEVELOPMENT, UTP

- **Relevant coursework:** Software Development I – VIII, Data Structure, Software Engineering, Database.
- **Projects:** Implemented a web app in the form of a serious game. A kids platform showing multiple questions in a variety of topics. It was built using Java on the backend and HTML5, CSS3, JavaScript & Bootstrap on the frontend.
